

The image contains six separate line drawings of insect wings, each illustrating a different venation pattern. The top drawing shows a wing with a large triangular areolet and a prominent marginal cell. The second drawing from the top shows a wing with a curved areolet and a marginal cell. The third drawing from the top shows a wing with a more complex areolet and marginal cell arrangement. The fourth drawing from the top shows a wing with a very small areolet and a distinct marginal cell. The fifth drawing from the top shows a wing with a large areolet and a marginal cell. The bottom drawing shows a wing with a large areolet and a marginal cell.
